Release Notes

Version 1.2.0

Released: 21.09.2022

Type	Information
Feature	Added support for WHMCS 8.6 & PHP 8.1

Version 1.1.2

Released: 17.08.2021

Type	Information
Bugfix	Under certain circumstances, duplicate account detection did not work properly in WHMCS v8.1 and upwards. This has been fixed.

Version 1.1.1

Released: 12.01.2021

Type	Information
Feature	Due to a bug in WHMCS 8.1, the customer receives an error message when resetting the password when the Detect Multiple Accounts addon is installed. A workaround has been added.

Version 1.1.0

Released: 11.10.2020

Type	Information
Feature	Added support for WHMCS v8.
Feature	If a new module version is available, an information is now displayed at the module admin page.
Feature	New option to note duplicate accounts in the WHMCS activity log.
Feature	The module now distinguishes between new registrations and logins. This means that when someone registers a new account, the module uses a different text than when someone logs into an existing account (provided you have the event option "On Login" enabled).

Version 1.0.1

Released: 07.03.2019

Type	Information
Info	Public release
