Install the module

The installation and configuration of the module should take no longer than 5 minutes. Follow these simple steps:

1. Extract the module archive which you downloaded from the client area.
2. Upload the module to your WHMCS installation.
3. Go to the WHMCS Admin backend, click on **Setup Notifications**.
4. At "Discord" click on **Configure** and enter your **webhook URL** and license key.

After completing these steps, the module setup is complete and you can proceed with configuring the notifications.

Please follow these steps to create a webhook URL
