Discord Notifications For WHMCS Home

ⓘ **Here you can buy the module**

Description

This module complements the WHMCS notification system to send messages via Discord.

The module is fully integrated into the WHMCS notification system so that all functions can be used.

For each configured notification, the following additional options can be set:

- Message Color
- Replace the default webhook URL with a custom webhook URL to post messages in different channels
- Customize the primary display message shown in the notification
