Module Configuration

Mail Subject & Body configuration details

Production Mode

If disabled, the module will not send mails.

Amount of Reminders

Define how much reminders you want to send. You can add an unlimited amount of reminders.

Disable Domain Grouping

If activated, a separate email will be sent for each expiring mail instead of all domains in one email.

Reminder Configuration

Enter a number of days. The domain expire date is used for the sending calculation.
If you enter 0, the mail will be sent on the expiry date.
