

Module Configuration

 Mail Subject & Body configuration details

Production Mode

If disabled, the module will not send mails.

Amount of Reminders

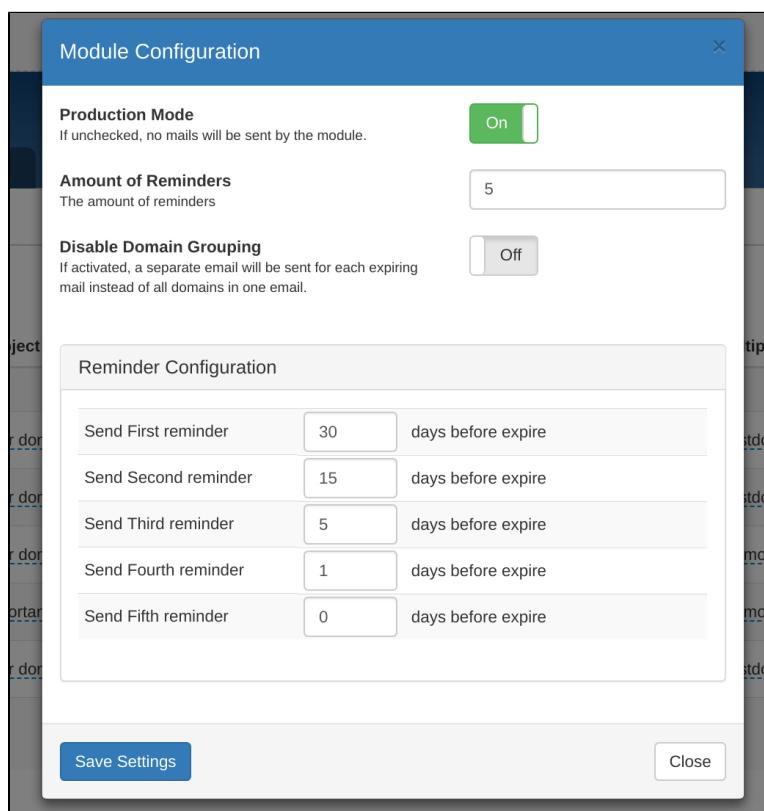

Define how much reminders you want to send. You can add an unlimited amount of reminders.

Disable Domain Grouping

If activated, a separate email will be sent for each expiring mail instead of all domains in one email.

Reminder Configuration

Enter a number of days. The domain expire date is used for the sending calculation.
If you enter 0, the mail will be sent on the expiry date.

The screenshot shows the 'Module Configuration' dialog box. It contains several sections:

- Production Mode:** A switch labeled 'On' (green) with the note: "If unchecked, no mails will be sent by the module."
- Amount of Reminders:** A text input field containing the value '5'. The note: "The amount of reminders" is displayed below it.
- Disable Domain Grouping:** A switch labeled 'Off' (grey) with the note: "If activated, a separate email will be sent for each expiring mail instead of all domains in one email."
- Reminder Configuration:** A table showing five reminder intervals:

Reminder Type	Days Before Expire
Send First reminder	30
Send Second reminder	15
Send Third reminder	5
Send Fourth reminder	1
Send Fifth reminder	0
- Buttons:** 'Save Settings' (blue) and 'Close' (white).
