

# Module Installation

 Installation of the module is completed within minutes.

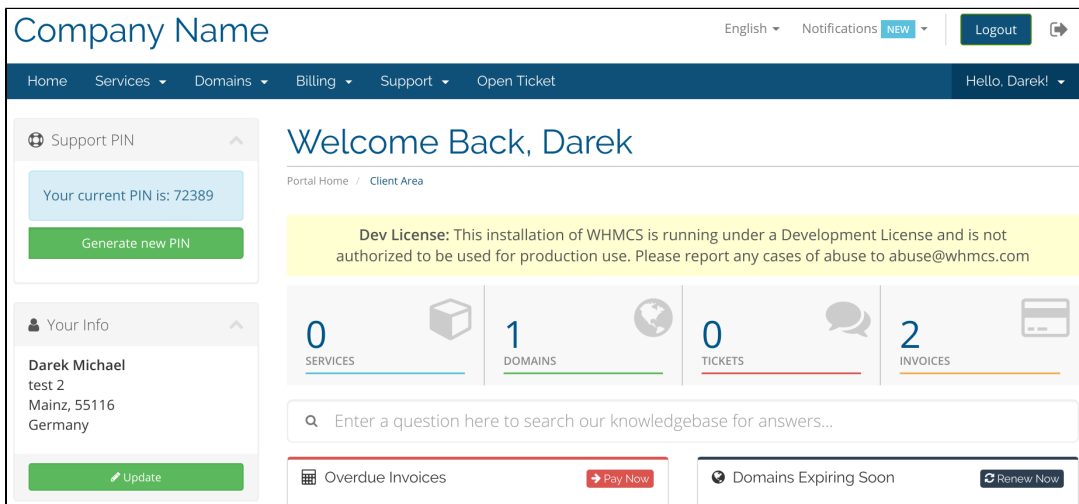

1. Extract the module archive which you downloaded from the client area.
2. Upload the module to your WHMCS installation.
3. Go to the WHMCS Admin backend, click on **Setup Addon Modules** and activate the module.
4. Click on **Configure** and do configure the values which you want to edit or leave it at the default values. At the point "Full Access IDs" you can specify which Admins should have access to all generated PINs. Accounts which are not listed will have to use the search mask to lookup the pin. Admins must be specified by their ID.
5. At "Access Control" select "Full Administrator".

If you want to use the dedicated module page, which is available under <https://yourdomain.com/index.php?m=supportpin>, you need to add a menu entry. An example hook to add the menu entry is included in the module package.

On WHMCS v6 or above a [sidebar widget](#) is available, therefore you do not need to add a link to the module page. At the module configuration you choose via a dropdown between 2 different sidebar themes:

The screenshot shows the WHMCS Client Area interface. The top navigation bar includes links for Home, Services, Domains, Billing, Support, and Open Ticket. The main content area features a 'Welcome Back, WHMCS' message and a dashboard with statistics: 2 SERVICES, 0 DOMAINS, 0 TICKETS, and 0 INVOICES. A search bar is present for the knowledgebase. The left sidebar, titled 'Support PIN', contains a PIN input field (7 4 6 0 3), a 'Your Info' section with details for 'WHMCS Test', and a 'Contacts' section. The main content area also includes sections for 'Your Active Products/Services', 'Recent Support Tickets', and 'Recent News'.

The screenshot shows the WHMCS Client Area interface with a different sidebar theme. The top navigation bar is similar, but the 'Notifications' dropdown shows a 'NEW' badge. The main content area features a 'Welcome Back, Darek' message and a dashboard with statistics: 0 SERVICES, 1 DOMAINS, 0 TICKETS, and 2 INVOICES. A search bar is present for the knowledgebase. The left sidebar, titled 'Company Name', contains a 'Support PIN' section showing the current PIN as 72389, a 'Your Info' section with details for 'Darek Michael', and an 'Update' button. The main content area also includes sections for 'Overdue Invoices' and 'Domains Expiring Soon'.
