

Install the module

The installation and configuration of the module should take no longer than 5 minutes. Follow these simple steps:

1. Extract the module archive which you downloaded from the client area.
2. Upload the module to your WHMCS installation.
3. Go to the WHMCS Admin backend, click on **Setup Addon Modules** and activate the module.
4. Click on **Configure** and enter your license key.
5. Activate the desired options. Read following article for informations about each option: [Module Configuration](#)
6. At "Access Control" select the admin groups that should have access to the module.
7. [Insert the tracking code to your mail template.](#)
