Install the module

The installation and configuration of the module should take no longer than 5 minutes. Follow these simple steps:

- 1. Extract the module archive which you downloaded from the client area.
- 2. Upload the module to your WHMCS installation.
- 3. Go to the WHMCS Admin backend, click on Setup Addon Modules and activate the module.
- 4. Click on **Configure** and enter your license key.
- 5. Activate the desired options. Read following article for informations about each option: Module Configuration
- 6. At "Access Control" select the admin groups that should have access to the module.
- 7. Insert the tracking code to your mail template.
