

Features

With this module your customers can share the cart or save it for later. Furthermore, it is possible that the employees share a shopping cart. This is ideal if the customer wants a ready-made solution, but can not find his way. This module is also ideal for advertising as it allows you to share preconfigured shopping baskets.

Feature list

- Multilanguage
- AJAX powered
- No template changes required
- The design can get edited
- Blesta v5 and higher supported
- PHP 5 / 7 supported

The screenshot shows the Blesta shopping cart interface. A modal window titled "Share or save your current shopping cart" is open in the center. The modal contains the following text:

Share or save your current shopping cart

The configuration is saved in the URL below, with which you are able to share your configuration or finish your order at a later time.

This URL can also be used to ask for help from our sales team to finish this order.

<https://whmcs.deploymentcode.com/index.php?cartshare=7bf4902f7e435e>

A new URL must be generated each time the configuration changes. Be sure to grab a new URL via the 'Share' button if you change any of the options.

Buttons: Close, Copy to clipboard

The background shows the shopping cart items and totals:

Quantity	Price
1 @	€3.00
1 @	€2.50
1 @	€1.00
Subtotal: €6.50	
Total Due Today: €6.50	
Total When Renewing: 1 Month @ €6.50	

Buttons at the bottom: Share Cart, Click to order more items

Text at the bottom: Or register/log in and continue to make payment.
