

DirectAdmin Admin SSO For WHMCS

 [Here you can buy the module](#)

Description

This module adds a link to automatically login to the DirectAdmin user panel via the WHMCS Admin service view just like cPanel or Plesk. No template adjustments are necessary.

The screenshot shows the WHMCS Admin interface. At the top, there is a navigation bar with tabs: Summary, Profile, Users, Contacts, Products/Services, Domains, Billable Items, Invoices, Quotes, Transactions, Tickets, and Emails. Below the navigation bar, there is a search bar with the text 'DirectAdmin Hosting' and a 'Go' button. To the right of the search bar, there is a blue button labeled 'Login to DA' with a right-pointing arrow icon. A red box highlights this button, and a red arrow points to it from the left. To the right of the 'Login to DA' button, there is a '+ New Addon' button and a 'More' dropdown menu. Below the search bar, there is a table with the following data:

Order #	26884 - View Order	Registration Date	
Product/Service	DirectAdmin Hosting	Quantity	1
		First Payment Amount	14,99
