Module Options

The module offers various setting options, which are described below.

License Key

You will receive a license key from us, which you have to enter here.

Public Key Token / Private Key Token

You find the keys on this page: https://dashboard.stripe.com/apikeys

Webhook Secret Signature

You find the webhook secret signature on this page: https://dashboard.stripe.com/webhooks

Statement Description

The value defined here will be displayed on the customer's account statement. Besides static text, the following variables are supported:

- {{invoiceid}} - **REQUIRED FIELD. A space character must be in front of the variable (i.e., you can't write {{invoiceid}} at the beginning of "Statement Description").**
- {{companyname}}

The statement description must be between 5 and 22 characters long. If your company name is long, you should replace the {{companyname}} variable with a custom text.
