

Install the server module

First activate the NOC-PS For WHMCS module:

1. Download the module archive from the [client area](#) and extract it.
2. Upload the module to your WHMCS installation.
3. Go to the WHMCS Admin backend, click on **Setup Addon Modules**.
4. Click **Activate** at **NOC-PS For WHMCS**.
5. Click **Configure**, enter your License Key and select **Full Administrator** at Access Control.
