

Manually assign Server

The WHMCS product needs to be linked to the NOC-PS server in order to function.

To implement this, enter the NOC-PS server IP address in the "Dedicated IP" field in the product configuration and choose your NOC-PS server from the "Server" dropdown.

The IP address in WHMCS must match with the server IP at NOC-PS.

Server	NOC-PS Server #1 (1/200 Accounts) ▼	
Hostname	myneworder.com	▼
Dedicated IP	192.168.111.2	

IP-address ▲	Hostname	Description
192.168.111.1	gateway	In use by gateway
192.168.111.2	h192-168.111-2	[Hw: 2x L5630 @ 2.1
